

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Clinical Researcher, Maternal-Fetal Medicine Unit

Assisted reproduction and gynecological endocrinology Unit – Vall d'Hebron Hospital

The Obstetrics and Reproductive Medicine Department is a world leader in terms of the quality of its care, teaching and research. For women who wish to become mothers and need technical assistance, we have a state-of-the-art assisted reproduction laboratory. In addition, we care for pregnant women, considering the mother's health and that of the future baby first and foremost, and always respecting the mother's wishes.

In the Assisted Reproduction and Endocrinology Unit we are developing a clinical trial to demonstrate the safety and efficacy of a medical device that aims to improve the success of embryo transfers, and we are looking for a person with research laboratory and project management experience to support the group of researchers involved in this study.

JOB DESCRIPTION

Education and qualifications:

Required:

- Bachelor of Medicine
- Specialist in Obstetrics and Gynecology
- Experience in the area of Assisted Reproduction and clinical research
- Fluency in Catalan, Spanish and English

Desired:

- Publications and previous work in this area

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.
