

Job opening for Programa Investigo at Oniria Therapeutics

Junior Regulatory and Development Manager

Oniria Therapeutics is a biopharmaceutical company in the field of precision oncology focused on cancer persistence. Oniria Therapeutics aims to revolutionize cancer treatment by bringing to market the first-in-class drug ONR001, designed for solid and aggressive liquid tumors unresponsive to current treatments, paving the way for novel therapeutic combinations or standalone treatments.

The company was founded in 2021 as a Spin-off of the Vall d'Hebron Institute of Oncology (VHIO), the University of Barcelona (UB) and Catalan Institution for Research and Advanced Studies (ICREA) by Dr. Héctor G. Palmer, Dr. Isabel Puig-Borreil, Dr. Xavier Barril, Dr. Carles Galdeano, Dr. Josep Taberner and Ms Esther Riambau. It is supported by national investors and organizations in the healthcare and life science sector. The company is located at the CELLEX CENTER, in the Vall d'Hebron campus.

Job description

We are seeking a motivated Junior Regulatory and Development Manager to join our Business Development team for the development of new agents designed to fight cancer persistence. The candidate will participate in a highly translational project with interactions with academic institutions, industry and clinicians.

It is a great opportunity to gain drug discovery experience participating in the following key tasks:

- Draft and prepare preclinical protocols and study reports, essential for advancing drugs in development and crucial for the effective presentation of clinical trials.
- Establish and enhance strategic relationships with collaborators and external suppliers, boosting preclinical research and significantly contributing to the company's scientific progress.
- Administer and innovate in preclinical databases, ensuring cutting-edge and efficient data management.
- Actively participate in scientific meetings, being a key contributor to the dialogue and exchange of ideas for the future of pharmaceutical research.

This position is related to the Investigo grant of which Oniria has been a beneficiary.

Finançat per

Requirements

- Must have:
 - Bachelor's degree related to Life Sciences (Biomedical Sciences, Biology, Biotechnology, Genetics, Microbiology, Pharmacy)
 - Be unemployed and registered as a job seeker in the Servei Públic d'Ocupació de Catalunya (situació DONO).
 - Be under 30 years old
- Nice to have:
 - Master or postgraduate in pharmaceutical development and/or pharmaceutical regulation. Experience developing similar tasks will also be considered.
 - High level of written and spoken English.

We offer:

- Full-time contract for one year in an exciting biotech start-up
- Gross salary: 25.000 €
- Location: Barcelona, with possibility of remote work
- International environment
- Continuous training in a high-quality scientific environment
- Friendly working environment
- Expecting starting date: end of August 2024.
